PATCHAIYAPPAN K

Full Stack Developer

2nd Cross Street, Vallalar Nagar, Ganapathichettikullam, Puducherry – 605014
+91 97915 79586 | patchaiyappan26kannan@gmail.com | LinkedIn | GitHub | Portfolio

PROFILE

Full Stack Developer with 2+ years of experience building ERP, SaaS and web applications. Skilled in React (JavaScript & TypeScript), Node.js, Express, Sequelize and Python (FastAPI) with SQL Server, MySQL and PostgreSQL. Experienced in designing REST APIs, implementing business workflows and validations, GST compliance integrations, and delivering production-ready modules.

KEY ACHIEVEMENTS

- Integrated GST e-Invoice (IRN and QR code generation) and e-Way Bill APIs into the HARPA web ERP, automating statutory compliance directly from the Sales and Dispatch workflows.
- Delivered 24 modules across 3 production ERPs (HARPA, Balaji ERP, ERP 360) with end-to-end order, inventory and billing workflows.

EXPERIENCE

Software Developer – ASK Technology, Chennai | Feb 2026 – Present

- Delivered 6 production modules (Production, Purchase, Inventory, Quality Control, Sales, Reporting) for HARPA, a garment manufacturing ERP, using React.js, Node.js, Express.js, Sequelize and SQL Server.
- Built 8 business modules (Product Master, Sales Order, Purchase Order, Sales Invoice, Inventory, Billing, Order Management, GST) for Balaji ERP, covering the full order-to-invoice cycle.
- Developed UI, REST APIs, database queries, validations and workflows for 10 modules of ERP 360, a multi-module SaaS ERP (GRN, QC, Return, Work Order, Job Work, Fabric Issue, DC Trim In, Purchase, Sales, Inventory).

Software Developer Intern – DGi WORX, Chennai | Jul 2025 – Nov 2025

- Built Credo Star, a scalable online course platform, with React (TypeScript), Vite and Material UI; implemented authentication, course enrollment workflows and user dashboards.
- Developed responsive, offline-friendly public pages and simple booking flows for FarmGro Eco-Trails (agri-tourism) to support users with limited rural connectivity.
- Developed Curry Box, a food-ordering platform with customer ordering workflows and an admin panel for menu and order management, using React.js, Node.js and MySQL.
- Created high-performance backend APIs with Python FastAPI and PostgreSQL, including secure login and enrollment flows.

Junior Software Developer – Promethean Software Solutions, Pondicherry | Dec 2023 – Jun 2025

- Built 3 role-based Medshyne applications (Organization Onboarding, Doctor/HCR App, Super Admin Panel) using React.js, Node.js, MySQL and Bootstrap, with authentication, scheduling and secure data access.
- Implemented patient scheduling and monitoring features with real-time data updates for the East Coast Hospital Dialysis Module (React.js).
- Improved performance, accessibility, SEO and overall UX of the React-based company website.

TECHNICAL SKILLS

Frontend: React (JavaScript & TypeScript), Vite, HTML5, CSS3, Bootstrap, Material UI, Axios
Backend: Node.js, Express.js, Sequelize, Python (FastAPI), RESTful APIs, API Integration, GST e-Invoice & e-Way Bill API Integration
Databases: SQL Server, MySQL, PostgreSQL, MongoDB
Tools & Practices: Git, GitHub, Postman, Visual Studio Code, Testing & Debugging, Agile Collaboration
Soft Skills: Problem Solving, Team Collaboration, Communication, Adaptability

EDUCATION

MBA – General | 2026 – Pursuing
Christ Institute of Technology, Pondicherry University

B.Tech – Electrical and Electronics Engineering | 2017 – 2021 | CGPA: 7.89
Christ College of Engineering & Technology, Pondicherry University

- Project: Piezoelectric Energy Harvesting – generated 5W power from vibrations and improved conversion efficiency by 12%.
- Internship: Supreme & Co. Pvt Ltd, Kolkata – power transmission manufacturing processes and quality testing.

HSC – State Board of Tamil Nadu | 2016 – 2017 | Percentage: 55%
Jothi Vallalar Higher Secondary School

SSLC – State Board of Tamil Nadu | 2014 – 2015 | Percentage: 74%
Kolping Matriculation Higher Secondary School
